MEAT MARKET PLANS OPENING NEXT WEEK

Plans for the opening of a butcher shop, specializing exclusively in meats, both wholesale and retail, were announced this week by partners in the business.

Adolph Zwicke and Paul Klinger disclosed plans to open their store at 1954 Carson St., corner Andreo Ave. early next week.

To be called the Reliable Meat Market, the shop will carry a complete line of fresh and smoked meats and offers free cutting and wrapping for bulk orders for home freezers, according to Zwicke.

"Because we specialize in meats, we expect to bring lower meat prices to Torrance and to save local homemakers considerable money on their weekly meat bill," Klinger stated.

Formerly owners and operators of a similar business in Illinois, both men now reside in Torrance with their families. Zwicke, his wife and two children reside at 1750 Cabrillo Ave. Klinger, also married and the father of two youngsters, lives at 1740 Date St.

In addition to offering lower prices and free cut and wrap service, Reliable will provide free delivery service on all bulk orders, it was disclosed.

Issue \$1,500,000 Building Permits During January

Building shot over the million and a half dollar mark during the first month of this year, according to the records of the city planning department.

Permits totalling \$1,573,480 were issued here in January. Only \$584,028 in permits were issued during January of 1952, according to Walter C. Bradford of the building department.

Three large blocks of permits last month went to developers of large tracts.

Truman Browne was issued permits for 25 more houses in his Sepulveda Gardens tract. These totaled \$236,700.

Cottage Grove Properties got permits for 129 homes valued at \$926,500. These houses will be built at Crenshaw blvd. and Pacific Coast Highway.

The third block went to T. Thornburgh for nine houses, valued at \$57,000 and being built now on Taylor Court in North Torrance.

February got off to a good start also with permits totalling \$676,496 up to the close of business Tuesday.

Included in these permits were 43 homes and garages to be built in North Torrance by the Milton Kaufman Co. Also slated for construction in North Torrance following the issuance of building permits are 19 more homes to be built by Anthony Maniscalchi.

Repairs Begun On Fire Damaged Recreation Hall

Work will begin today to repair damage to the Torrance Adult Recreation Center caused by a fire early last week, according to City Manager George Stevens.

Fire damage was set at \$7,000, fully covered by insurance. It is expected that the repairs will take about six weeks to complete, Stevens said.

He stated that all furnishings lost in the blaze will be replaced by the insurance company.

The fire which badly damaged the interior of the only recently completed recreation hall was of an undetermined origin, according to Stevens.

Nature Group Plans Excursion

The Kiwanis Club nature study group will hold their annual study excursion on Feb. 19-20, and 21, at Ojai, according to Wayne Lindner, editor of the club bulletin, the Torvanian.

Dean Sears, chairman of the group, reports that 35 reservations for the trip have already been received.

FUNCTIONS OF FOOD

Food has two functions, first to supply energy to the body and second to build up the tissues in growth or when they are worn out.

A Puerto Rican outfit, listed as the oldest National Guard unit in the United States, traces its history back to 1510. Ponce de Leon was its first commanding officer.
